Sign up for only \$5 per month of wind energy and get a free water bottle!

You can help build a clean energy future here in NEW YORK!

How wind energy works

Your participation in RG&E's wind energy program allows you to support the development and growth of wind power **here in New York**, reducing the need for energy produced from other sources. By purchasing wind energy you can help the environment and economy while making our communities even better places to live and work.

Part of RG&E's commitment to the environment...

Printed using 100% wind energy and soy ink on 30% post-consumer waste content recycled paper.

DST - 00084923

Sign up today to choose clean, local wind energy.

Purchasing just \$5 worth of wind energy every month for one year has the environmental benefit equivalent to planting 38 trees or not driving almost 3,800 miles. Join your neighbors in making the switch to clean power.

The small monthly charge of \$5 added to your monthly RG&E bill covers the additional expense of 200 kilowatt-hours of wind energy delivered to the New York power grid. Rest assured, RG&E will continue to deliver your electricity safely and reliably.

Already signed up? Thank you for making a difference! No further action is required.

 **Yes!** I want to make a difference. **Sign me up!**
