

Get up to \$1,000 to upgrade your gas heating equipment!

Christian, Gianna and Nicole
warm up to savings.

Bigger rebates — Act now

For a limited time only, we have increased our rebates for natural gas equipment installed between September 1 and November 30. Take a look at these great offers below and then visit rge.com for more information or to use our convenient online rebate application.

<u>Qualifying Natural Gas Equipment List</u>	<u>Regular Rebate</u>	<u>NEW! Limited Time Rebate**</u>
Furnace AFUE \geq 94 with ECM	\$300	\$600
Furnace Tune-Up ¹	\$25	\$50
<hr/>		
Water Boiler AFUE \geq 90	\$450	\$1000
<hr/>		
ENERGY STAR Storage Water Heater \geq 40 Gallons ²	\$100	\$200
ENERGY STAR Tankless Water Heater ³	\$200	\$400
Indirect Water Heater ⁴	\$150	\$300
<hr/>		
<u>Qualifying Control Equipment</u>	<u>Rebate</u>	<u>NEW! Limited Time Rebate**</u>
NEW! Wi-Fi-Enabled Thermostat ⁵	\$25	\$50

AFUE = Annual Fuel Utilization Efficiency

ECM = Electronically Controlled Fan Motor

EF = Energy Factor

¹Existing natural gas furnaces only, boilers are ineligible. Limited to one rebate every five years. Effective January 1, 2016.

²ENERGY STAR tank type water heater with EF of .67 or greater.

³ENERGY STAR tankless water heater with EF of .82 or greater.

⁴Installed by a contractor at time of qualifying natural gas boiler installation.

⁵Contractor-installed or self-installed, must control a natural gas heating and/or air conditioning system. Qualifying Wi-Fi-enabled thermostats include thermostats connected through Wi-Fi, cellular frequency or alarm systems.

**Equipment must be installed by November 30, 2017 and rebate applications post marked by December 15, 2017 to qualify for the increased rebates.

RG&E

Energy Efficiency Programs

Take action today to manage your winter bills

Take action and take advantage of our services, energy savings tips and energy efficiency rebates to keep your energy bills in check this winter.

- **Set thermostats** at 65 to 70° during the winter and at 58° when away from home. Keep the thermostat higher if an infant, ill, or elderly person lives in your home.
- **Install a Wi-Fi-enabled thermostat** to turn down temperature automatically. Plus get a \$50 rebate if you purchase and install one by November 30, 2017. (See our special offers on the other side of this insert.)
- **Have your heating and cooling systems inspected** annually by a professional. Inefficient heating and cooling systems can increase fuel consumption. Plus get a \$50 rebate if you have a tune-up completed on your natural gas furnace by November 30, 2017. (See our special offers on the other side of this insert.)
- **Hire a qualified specialist** to inspect your chimney, flues and vents to ensure they are clear and working properly.
- **Replace or clean furnace and air conditioner filters** when they get dirty or once every month.
- **Warm air rises, so use registers** to direct warm air flow across the floor.
- **Enroll in our Budget Billing service** to spread your energy costs evenly over 12 months.
- **Having trouble managing your energy bills?** HEAP and EAP can help! Find out if you are eligible for energy assistance with a federal grant through the Home Energy Assistance Program (HEAP) and our Energy Assistance Program (EAP). Visit rge.com/YourAccount/HEAPandEAP.html.
- **Compare and shop for your energy supply.** You can purchase your energy supply from us at a variable rate, or from one of many Energy Services Companies or ESCOs. For more information, visit rge.com/UsageAndSafety/energysupplier/energysupplychoice.html.
