

Custom Measures Commercial and Industrial Rebate Program

► *The NYSEG and RG&E Commercial and Industrial Rebate Program offers custom rebates to qualifying nonresidential customers who install energy efficiency measures that are not covered by the prescriptive applications. All applications received under the “custom” portion of this rebate program require thorough and complete documentation of the proposed cost and projected energy use and savings.*

Eligibility Requirements

- Any nonresidential NYSEG or RG&E customer including commercial, industrial, institutional and municipal.
- Must pay System Benefits Charge (SBC).

Eligible Non-Prescriptive Measures May Include, But Are Not Limited To:

- >> Energy management systems
- >> Building thermal envelope upgrades
- >> Compressed air equipment
- >> Energy efficiency process improvements
- >> Geothermal heating and cooling
- >> Daylighting systems
- >> Infrared radiant heaters
- >> Steam traps (natural gas or electric generated steam only)
- >> Grain dryers (natural gas or electric only)
- >> Heat recovery systems (natural gas or electric heat only)

Rebate Guidelines

- NYSEG/RG&E may change the program at any time without notice.
- No maximum per customer rebate; however, NYSEG/RG&E reserve the right to cap the rebate to any one customer.
- Pre-approval is required for all custom applications.
- Customers can receive rebates from the New York State Energy Research and Development Authority (NYSERDA) or their utility, but **not** from both NYSERDA and their utility for the same measure.

Program Requirements

- Measures must be cost-effective (total resource cost of at least 1.0 to be confirmed by rebate processor).
- Installation of eligible measure(s) must occur on or after the program start date of July 1, 2010.
- Application form must be submitted with all required supporting documentation.
- Custom rebate request must be received within 90 days of project completion.
- Customer must comply with all verification requirements, including on-site pre- and post-inspections.
