With just a few clicks, you can request to start your new service and stop your old service.

Start now at rge.com/Moving and let the unpacking adventure begin!

Our funding supports new dairy processing plant

We will be providing up to **\$5 million** in economic development grants to help bring the fairlife, LLC dairy processing plant to Webster.

The fairlife project is expected to contribute to the tax base, job creation and community improvement in Webster. It will be the largest and most sophisticated dairy processing plant of its kind in the world when it's completed in 2026.

The \$660 million investment to bring fairlife to the Rochester area is the result of collaboration by RG&E, New York State Economic Development, Monroe County Planning and Development, Greater Rochester Enterprise, Empire State Development and the Town of Webster.

We planted trees to celebrate Arbor Day. Did you know that just one tree can provide a day's supply of oxygen for up to four people?

Planting trees in our communities

To celebrate Arbor Day this spring, we planted cherry trees outside homes recently built by **Greater Rochester Habitat for Humanity**. We'll be planting 50 more trees in Rochester throughout the spring and summer.

This new initiative to plant trees is designed to help bring life back to urban communities. And by planting the right tree in the right place, trees add beauty and support the environment without causing power interruptions. Learn more about planting tips at rge.com/TreePlantingTips.

Plus, our Tree Care crews continuously work to maintain trees along power lines, providing safe and reliable service to customers.

Comfort, savings and a rebate

Invest in comfort and lower your energy use at the same time with home insulation and air sealing rebates.

By properly insulating and air sealing your home, **you could get up to \$2,000 instantly** and enjoy a more comfortable, energy-efficient home. Plus, **save up to \$200 on your annual energy bills**, year after year.

Learn how by visiting rge.com/Weatherize.

New! Pay your bill with Apple Pay or Google Pay

We now offer two new secure ways to pay your **RG&E** bill – **Apple Pay** or **Google Pay**.

These new payment options enhance your payment experience with convenience, speed and robust security measures.

- No additional fees.
- No need to re-enter information, saving you time.
- Secured through Apple and Google with encryption.

Visit rge.com/PayOnline and select Guest Checkout or log into your account – it's that easy.

Be safe: Pipeline markers show the way

Since natural gas pipelines are underground, line markers are sometimes used to indicate their approximate location. The markers display the material transported, and the pipeline operator's name and phone number.

Markers only indicate a pipeline's general location and cannot be relied upon to indicate their exact position. Because many lines are not marked, you must contact UDig New York at **811** or udigny.org before you start to dig. It's free, it's easy, and it's the law.

The choice is yours

Shopping for a natural gas supplier may be another way to help manage your energy costs. Visit rge.com/Choice for a supplier list and questions to ask them. With any supplier you choose, we will deliver your energy safely and reliably, and we are here – 24/7 – to respond to emergencies.
