DELIVERY PRICE: (Per Month) (Cont'd)

The Company reserves the right to adjust the delivery price to individual customers based on market conditions. The price may be revised monthly. If applicable, the adjusted delivery price will be specified on the Interruptible Transportation Rate Statement which will be filed with the PSC no later than three days before the effective date.

If the provision of transportation service to the Customer requires the Company to engage the services of others, an amount reflecting the costs incurred by the Company shall be added to this price.

A Customer that fails to meet the requirements set forth under Special Provisions - Distillate Fuel Customers and Special Provisions - Human Needs Customers of this Service Classification shall be assessed a premium equal to the greater of 130% of the applicable gas equivalent alternate fuel price or 130% of the otherwise applicable sales price less an estimate of the Customer's natural gas price, as determined by the Company, per therm. The premium shall be applied for the billing period during which noncompliance becomes known and for each subsequent billing period until the Customer has provided sufficient evidence, as determined by the Company, that it has fully complied with the requirements set forth under Special Provisions - Distillate Fuel Customers and Special Provisions - Human Needs Customers.

CUSTOMER CHARGE:

The Customer Charge is set forth in PRICE (Per Month), per meter, plus the Bill Issuance Charge, per bill if applicable. The Customer Charge and the Bill Issuance Charge, if applicable, will appear on the Customer's bill whether or not any gas was used during the billing period.

MINIMUM CHARGE:

The Customer shall be required to purchase a minimum quantity of 40,000 therms per billing month. If this minimum is not met, the deficiency shall be billed at:

- a. The applicable delivery price as set forth herein pursuant to DELIVERY PRICE: (Per Month); or
- b. On the monthly Statement of Gas Interruptible Transportation Rate Adjustment, if filed, pursuant to this Schedule, or any superseding issues thereof.

In the event that service is interrupted by the Company in accordance with the terms of this Service Classification, then the Minimum Charge shall be multiplied by the ratio of the number of days that service is available to the customer for a full day to the total number of days in the service period.

The Company, at its sole discretion, may waive the minimum use requirement in constrained areas. In such instances, the minimum charge will be based on the agreed upon usage level.

WEATHER NORMALIZATION ADJUSTMENT (WNA):

All space-heating customers shall also be charged the applicable WNA pursuant to General Information Section 11 of this tariff.

INCREASES IN PRICES AND CHARGES APPLICABLE WHERE SERVICE IS SUPPLIED:

The rates and charges under this Service Classification, including the Minimum Charge, shall be increased by a surcharge pursuant to Rule 4.1 of this Schedule to reflect the tax rates applicable within the municipality where the customer takes service.

- B. A customer shall provide a signed affidavit by the close of business on October 1, or by the close of business on the following business day if October 1 falls on a weekend or holiday attesting the customer meets the requirements to take service under this Service Classification. The Daily Penalty Charge shall be \$1,000 per day.
- C. Customer's natural gas equipment should have an alternative source of fuel, however this requirement may be waived by written permission of the Company. The Company reserves the right to conduct an on-site inspection of the Customer's alternate fuel facilities at any time to determine whether the equipment is properly installed, maintained, functioning and capable of serving the Customer's energy requirements at a level equivalent to that of the natural gas provided under this Service Classification. Natural gas equipment served under this Service Classification, may be transferred to an applicable firm Service Classification with the written permission of the Company. SPECIAL PROVISIONS - ALL CUSTOMERS: (Cont'd)

H. (Cont'd)

If a Customer notifies the Company that they are currently incapable of interrupting and switching to their alternate fuel due to circumstances outside of the customers control, the Customer must resolve the issue within ten (10) calendar days or the Company shall begin assessing the Non-Compliance Charge. If the Company becomes aware that a customer is currently incapable of interrupting and switching to their alternate fuel through an on-site inspection, the Company shall begin assessing the Non-Compliance Charge the following day.

The Non-Compliance Charge shall be assessed until the Customer notifies the Company that they are now capable of interrupting and switching to their alternate fuel and the correction has been verified by Company personnel through an on-site inspection.

A Two-Violation Interruptible customer, defined below, shall also be subject to a Non-Compliance Charge for all gas consumed from the time of the second violation until the end of the current winter period.

If the Company calls for an interruption and the customer fails to interrupt as required, the Company shall impose the Unauthorized Use Charge set forth in Special Provision A., in lieu of the Non-Compliance Charge, for unauthorized gas usage during the interruption period. Following the interruption, the Company may resume imposing the Non-Compliance Charge through the end of the current winter period.

I. Failure to interrupt the use of gas during an interruption shall be counted as a violation under the Two-Violation Rule.

1. **Two-Violation Rule:** For each Winter Period, an Interruptible customer shall incur a violation if the customer fails to fully interrupt its use of gas at any time during an interruption, including any planned interruptions (except for any permitted use of gas for ignition purposes).
 - a. If a customer's second failure to interrupt occurs within 48 hours of an initial violation, the second failure shall not be considered a second violation. If a failure to interrupt is due to failure of Company-owned equipment that is not attributable to the customer, the failure to interrupt shall not be considered a violation.
2. A customer's failure to interrupt its use of gas due to inoperable dual-fuel facilities (excluding, for purposes of this paragraph, associated customer-installed phone lines) counts as a violation towards the above-described two-violation rule except as follows:
 - a. During each Winter Period, a customer's failure to interrupt the use of gas during a planned interruption due to documented inoperable dual-fuel facilities shall not be counted as a violation provided that the customer:
 - i. notifies the Company within one hour of the failure of its equipment;
 - ii. repairs and makes operable its dual-fuel equipment within forty-eight (48) hours of the equipment's failure; and
 - iii. provides the Company with an affidavit or other sufficient documentation that it has repaired and made operable its dual-fuel equipment and immediately complies with the earlier of the ongoing interruption or a separate planned interruption.
 - b. The Company shall extend the 48-hour repair deadline to a period not to exceed seven (7) days provided the customer demonstrates to the Company's satisfaction that such extension was necessary due to the unavailability of a part and its installation during such 48-hour repair period.

A distillate fuel supply shall be considered on-hand and adequate if the supply is either: (a) on-site and sufficient to meet a minimum of 10 consecutive days requirements; or (b) if Customer's physical facilities are insufficient to provide for a 10 day supply, then the Customer must: (i) have a full distillate fuel tank(s); and (ii) provide verification, to the Company's satisfaction, of alternative fuel supplies, other than spot market purchase of distillate fuel that, in combination with (a), provides for a 10 day supply.

- E. Subject to Company's discretion, any Distillate Customer may be relieved of the obligations set forth in Special Provisions - Distillate Fuel Customers (Rules B through D) if the Customer is willing to cease operation of those facilities that are subject to a notification issued in accordance with Special Provisions - All Customers (Rule A).

If a Customer under this section fails to cease operations when notified, the Customer shall immediately become subject to all the requirements otherwise applicable to Distillate Fuel Customers including, but not limited to, the failure to interrupt provisions contained in Special Provisions - All Customers (Rule A) and the retroactive application of the pricing premium, as detailed in the "Price" section of this Service Classification, until such time as full compliance, as determined by the Company, is achieved.
