

Appendix 4

Required Dust Control

(FEAF §1. D.2.i)

A Dust and Windblown Site Contaminant Control Plan documenting the D&R Contractor's means and methods of performing the work in accordance with the specifications and in conformity with all applicable laws, regulations, permits and RG&E's SOPs is a required submittal. This plan must address how the creation and dispersion of dust will be minimized and controlled, and must address all major construction activities having the potential to generate such dust. Control measures may include air monitoring (e.g., for particulates), moistening of dust generating surfaces, erection of wind barriers, and control of residues.
