## Our new website offers ease and convenience

We've simplified our site and made it mobile-friendly to make it easier to get the information you need and manage your account, no matter where you are! Our Frequently Asked Questions can help with any questions you might have.

Visit **rge.com** today on your phone, tablet or computer, and browse through our new site. We think you'll like it!

Our website has a fresh, new look and our mobile site is now responsive on mobile and tablet devices.

# We deliver energy — and information!

We deliver safe, reliable energy to you night and day, every day, all year round. But powerful storms can strike at any time and cause power outages. As our crews work to restore your power, you can stay informed of our progress in several ways.

**Outage Alerts:** With **FREE Outage Alerts**, if the power goes out, you can receive an alert by text, email, phone or all three. You'll get estimated restoration times, an alert when the power is back on, and much more. Plus you can text STATUS to 743898 anytime for an update.

**Outage Maps:** Our enhanced **Outage Maps** show power outage locations, current weather conditions and estimated times of restoration so you can plan.

**Outage Central:** Visit **outage Central** from your smartphone, tablet or computer. You can easily report an outage, see detailed outage locations and view estimated restoration times.

## Are your timers set to save money?

Eastern Standard Time (EST) begins Sunday, November 4. If you're a **RG&E Residential Time-of-Use electricity service customer**, be sure any timers you use to control equipment or appliances during lower cost service hours are always synchronized with the clock in your RG&E electric meter.

The clocks in our Time-of-Use meters automatically adjust for EST.
