Small Business Rebate Program

NYSEG · RG&E
Part of the Avangrid family

Your business. Your rebates. Your choice!

Through the **Small Business Rebate Program**, eligible customers can receive rebates for installing HVAC equipment, refrigeration and weatherization measures at their small business. The best part is you can work with any contractor to complete the installation or even install it yourself!

Free energy assessment

If you're not sure where to start on your energy-saving journey, a free energy assessment provides:

Expert guidance

An Energy Advisor visits your property.

Custom report

New products

A Trade Ally installs energy-saving devices.

Rebates

HVAC

- Demand-controlled ventilation (DCV)
- Kitchen demand- controlled ventilation (KDCV)
- Guest room energy management systems

Refrigeration

- Refrigerated case doors
- Refrigeration controls

Weatherization

- Weatherstripping & air sealing
- Roof & wall insulation

Benefits

Improving the energy efficiency of your small business will help you:

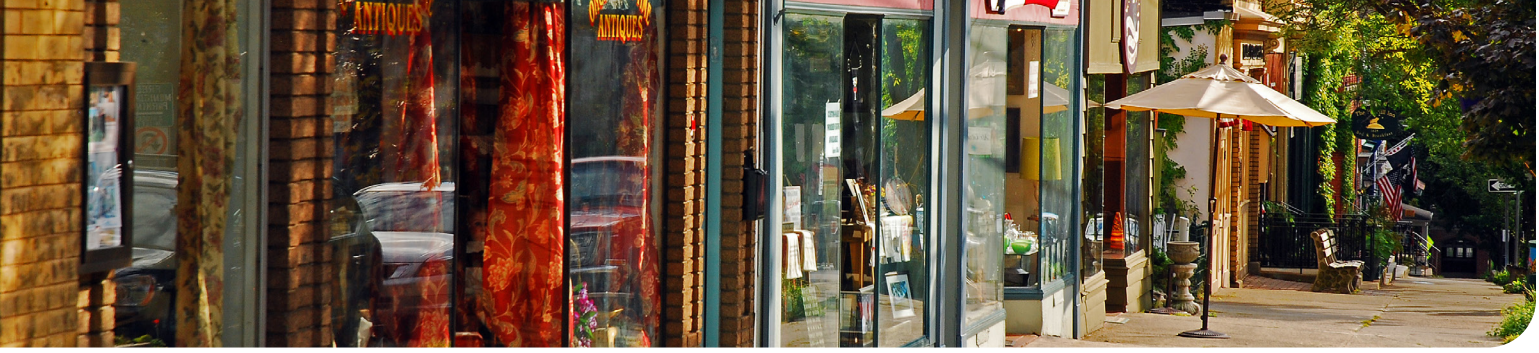

- **Increase profits** by reducing operating costs and utility bills, while also increasing potential rental income and the overall property value.
- **Promote your business** by enhancing the marketability of your products, services and brand image, particularly with environmentally conscious customers.
- **Minimize environmental impacts** by reducing carbon emissions.
- **Enhance your customers' experience** by providing a brighter, more comfortable environment.

Your simple steps to savings

Check for eligibility

Before you begin, confirm that your business is a NYSEG or RG&E small business customer. See the eligibility criteria below for more information or call **888.316.8023** to see if your business qualifies.

Visit our website

Visit **nyseg.com/sbrp** or **rge.com/sbrp** for a list of available rebates and all program resources.

Find a trade ally

You can either work with your own contractor or find a registered trade ally by visiting our website. Registered trade allies are experts in the program and can help you through the rebate process.

Identify project type

Together with your contractor or trade ally, determine if your project qualifies for a rebate.

NOTE: Energy efficient equipment not covered by the Small Business program may be eligible for Commercial and Industrial rebates. Visit nyseg.com/cirp or rge.com/cirp for more information on C&I rebates. All applications for custom measures require pre-approval prior to the purchase or installation of the equipment.

Install the equipment

Complete your energy-saving upgrade(s).

Apply for your rebate

Submit your completed application within 90 days of the project's completion.

Start saving and get paid

Receive your rebate check and start saving energy!

Eligibility criteria

Eligible accounts must meet one of the following sets of criteria. Project work scope must not result in a customer exceeding the thresholds listed below.

BOTH electricity and natural gas delivered by NYSEG and/or RG&E:

Average monthly demand less than or equal to 250kW.

Eligible for **all rebates.**

ONLY electricity from NYSEG/RG&E:

Average monthly demand less than or equal to 250kW.

Eligible for **electric measure rebates.**

ONLY natural gas from NYSEG/RG&E:

Annual total gas consumption less than or equal to 5,000 therms.

Eligible for **gas measure rebates.**
