

Understanding electric bill charges*

\$37.68 goes to government requirements and taxes.

\$70.07 is a pass-through cost from supply.

\$52.78 goes to operations, maintenance, customer service, administrative costs, and continued investments into the grid.

Delivery Charges

Electricity Delivery Charges		
Customer charge Delivery charge Transition charge Revenue decoupling mech SBC charge Recovery charge	715 kwh @ 0.07388 715 kwh @ 0.00692308 715 kwh @ 0.006626 715 kwh @ 0.005939 715 kwh @ 0.003995	23.00 52.82 4.95 4.74 4.25 2.86
Subtotal Electricity Delivery		\$92.62

Customer Charge/Delivery Charge

\$26.53

Approximately one-third of these two charges goes towards taxes and funding energy efficiency requirements. **These are government required charges.**

Transition Charge

\$4.99

Over half of this charge goes towards state government programs and mandates, like the Electric Vehicle Make-Ready Program. These charges are not individually shown on the bill. **These are government required charges.**

System Benefits Charge (SBC)

\$4.25

Approximately 3% of the total bill for a typical residential customer is used to fund clean energy activities overseen by the state. **These are government required charges.**

THESE ARE ALL GOVERNMENT REQUIRED CHARGES.

Customer Charge/Delivery Charge

\$49.29

Approximately two-thirds of these two charges goes towards delivery, customer service, and investments into the grid.

Transition Charge

-\$0.04

The remaining part of this charge reflects the difference between the market price of electricity and the price of RG&E's long-term electricity supply contracts from when it owned power generation (this may be a charge or a credit).

Revenue Decoupling Charge

\$4.74

A credit or charge on the bill that reflects the difference between forecasted and actual delivery service revenues

Recovery Charge

\$2.86

This is the repayment of costs from legacy storm recovery

Supply Charges

Electricity Supply Charges				
Variable Supply charge Merchant function charge - Mar Merchant function charge - Apr	715 kwh 298 kwh 417 kwh	999	0.0980015 0.003004 0.003832	70.07 0.90 1.60
Subtotal Electricity Supply				\$72.57

Supply Charge:

\$70.07

Supply is a pass-through cost from which the utility does not profit. If customers have RG&E as their supplier, energy is sold at the price at which it is bought. For customers who have a third party as their supplier, customers will see their supply costs on a different page of their RG&E bill or on a separate bill from the chosen supplier.

The State also requires a zero emissions charge and renewable emissions charge to be included in this line item. **These are government required charges.**

THESE ARE PASS-THROUGH COSTS FROM ENERGY SUPPLIERS.

Additional Electricity Taxes and Surcharges:

\$1.91

Merchant Function Charge

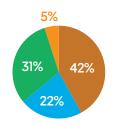

\$2.50

A per-kWh charge reflects RG&E administrative costs for obtaining electricity supply and applies to customers receiving supply from RG&E.

Bill and Payment Process Charge

\$0.99

These charges cover the cost of creating, handling, and processing customers' bills and payments.

Key to colors

- Government required charges.
- Charge for which RG&E is responsible.
- Authorized recovery mechanisms.
- Supply charges.
- This is based off an approximate residential 715 kWh bill from March-April 2025. Charges and fees do change and can vary every month and for each individual customer.

Understanding gas bill charges*

\$18.26 goes to government requirements, taxes, and pass-through cost from supply.

\$51.73 is a pass-through cost from supply.

\$47.42 goes to operations, maintenance, customer service, administrative costs, and continued investments into research and development.

Delivery Charges

Natural Gas Delivery Charges		
Customer charge		20.30
Included in customer charge	3.0 therm @ 0.00	0.00
Delivery charge for next	97.0 therm @ 0.36367	35.28
Delivery charge for next	12.3 therm @ 0.34633	4.26
Weather adjustment	27.8 therm @ 0.34640288	9.63
Revenue découpling mech	112.3 therm @ -0.003855	-0.43
Transition surcharge	112.3 therm @ 0.005921	0.66
Subtotal Natural Gas Delivery		\$69.70

Basic Service Charge/Delivery Charge

\$16.16

Approximately 27% of these two charges goes towards taxes and funding energy efficiency requirements.

These are government required charges.

Transition Charge

\$0.66

This charge goes towards state government programs and mandates. These charges are not individually shown on the bill. These are government required charges.

THESE ARE ALL GOVERNMENT REQUIRED CHARGES.

Customer Charge/Delivery Charge

\$43.68

The rest of these two charges goes towards delivery, customer service, and investments into the infrastructure. The first 3 therms are included in this charge.

Revenue Decoupling Charge

-\$0.43

A credit or charge on the bill that reflects the difference between forecasted and actual delivery service revenues

Weather Adjustment

\$9.63

A mechanism that moderates natural gas bills during any extreme weather between October 1 and May 31. Customers may receive a credit if temperatures are colder than normal and a charge if they are warmer than normal.

Supply Charges

Natural Gas Supply Charges				
Supply charge - March Merchant function charge	therm @ therm @	0.460667 0.024483	51.73 2.75	•
Subtotal Natural Gas Supply			\$54.48	

Supply Charge

\$51.73

Supply is a pass-through cost from which the utility does not profit. If customers have RG&E as their supplier, energy is sold at the price at which it is bought.

For customers who have a third party as their supplier, customers will see their supply costs on a different page of their RG&E bill or on a separate bill from the chosen supplier.

THESE ARE PASS-THROUGH COSTS FROM GAS SUPPLIERS.

Additional Taxes and Surcharges

\$1.44

* This is based off an approximate residential 115.5 therm bill from March 2025. Charges and fees do change and can vary every month and for each individual customer.

Merchant Function Charge

\$2.75

A per-therm charge reflects RG&E administrative costs for obtaining gas supply and applies to customers receiving supply from RG&E.

Bill and Payment Process Charge

\$0.99

These charges cover the cost of creating, handling, and processing customers' bills and payments.
